Deer Lodge County

Located in southwestern Montana, Deer Lodge County is Montana's 22nd most populous with 9,417 residents, according to the 2000 Census.

According to the *Montana Almanac*, by authors Andrea Merrill and Judy Jacobson, the county was established in 1865 and was one of the original nine territorial counties. At one time, it extended from the Beaverhead County line to the Canadian border.

The city of Anaconda was founded in 1883 by Marcus Daly, Montana's famous Copper King. Built after he died, Daly's Washoe Smelter was billed as the world's largest copper smelter. A golf course designed by golf legend Jack Nicklaus is built on the same site and includes relics from the old copper mine. The bunkers are filled with ebony-black sand, a by-product of the mine. Anaconda has preserved its historical district which includes the courthouse and Washoe Theater, listed in the National Register of Historic Places. The city of Anaconda and the county of Deer Lodge consolidated their governments in May 1977. Interestingly, the city of Deer Lodge is not in Deer Lodge County, but in Powell County.

According to the U.S. Bureau of the Census, median income for Deer Lodge County households in 1997 was $26,692. The county is 741.3 square miles in area; 737 square miles in land area and 4.3 in inland water area.

County residents experience the four distinct seasons. According to the *Western Regional Climate Center*, the average minimum temperature in Anaconda in January between 1961 and 1990 was 13.5 degrees above zero. The average maximum temperature in July was 81.0 degrees above. The annual precipitation during the same period was 14.06 inches and the growing season was from June 3 to Sept. 11 (last and first frost).
